## Part 4 - Declaration and Consent of Patient / Applicant (patient/applicant to complete)

I, the above named applicant for Driver Accreditation, consent to the examining optometrist providing information to the Taxi Services Commission (TSC) and/or VicRoads, and I understand that I shall be responsible for any medical expense incurred in connection with the compilation of the above medical certificate and I consent to the TSC disclosing my medical information to an independent health professional or review panel and if my medical information is provided to such a professional or panel, I authorise them providing health information about me to the TSC.

Signature of Applicant:

Date:

## Test of Acuteness of Vision Information

Visual acuity should be measured for each eye separately and without optical correction. If optical correction is needed, vision should be retested with appropriate corrective lenses.

Acuity should be tested using a standard visual acuity chart (Snellen or LogMAR chart or equivalent).

If in your opinion, the applicant doesn't meet the vision acuity guidelines but may still be suitable to drive a commercial passenger vehicle, please refer to the current version of the *Assessing Fitness to Drive Guidelines* and provide comprehensive details of any treatment or restrictions on the back of this form.
