

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

The Wheelchair Accessible Taxi (WAT) Vehicle Subsidy Scheme is administered by the Taxi Services Commission (TSC). This scheme is part of an ongoing commitment to expand and maintain the accessibility of WAT services in regional and country Victoria. The scheme subsidises the purchase costs of a WAT, to make it a similar cost to a conventional taxi.

To apply for a subsidy, applicants are required to complete the Application for a *Wheelchair Accessible Taxi Vehicle Subsidy* form. If your application is approved, then you will be required to enter into a WAT Subsidy Agreement. The subsidy will ordinarily be paid after the vehicle is licensed for operation as a WAT under the relevant regional or country taxi licence.

These guidelines include:

- Section A** About the scheme
- Section B** Instructions on how to apply
- Section C** Schedule of subsidy payment
- Section D** Subsidy agreement pro-forma

Please note: These guidelines only provide a summary of the rights and obligations that apply under the WAT Subsidy Agreement. Applicants should read the WAT Subsidy Agreement carefully and obtain independent legal, taxation and financial advice if necessary.

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

Section A: About the scheme

The TSC will consider each application on its merits, ensuring that the application meets all the criteria. Applicants are required to provide the TSC with a completed application form and any relevant supporting documentation. The TSC may also request additional information when processing your application. For approved applicants, the TSC will provide a subsidy as per Section C.

Assessment

The TSC will notify you in writing of its decision within 20 business days of receiving a completed and valid application.

If a suitable vehicle is sourced whilst your application is under consideration, the TSC recommends that you place a refundable holding deposit on the vehicle until you have confirmation from the TSC that your application has been approved. You should wait until the TSC has approved your application before finalising the purchase of a Wheelchair Accessible Taxi (WAT) vehicle.

The TSC will consider the merits of individual applications before any subsidy is approved.

Converting an existing taxi vehicle to a WAT

The TSC will consider applications to cover the conversion cost of a suitable existing taxi vehicle to a WAT where that taxi is already owned by the applicant. The same criteria will apply, but any subsidy is limited to the conversion cost only, with no retrospective payment in respect of the base vehicle. Funding in these cases will not be available where the vehicle is more than five years old.

Used vehicles

The subsidy is available to vehicles which are less than five years old at the time the subsidy is paid. Vehicle age will be calculated from the build date, as shown on the manufacturer's compliance plate.

New vehicles

If you are purchasing a new vehicle, and you wish to maximise the subsidy, you should ensure that the build date is very recent. That is, ensure that the vehicle is less than six months old at the time it is licensed as a WAT, has been converted and all other conditions satisfied.

Granting of a subsidy

If your application is approved, you will be required to enter into a WAT Subsidy Agreement with the TSC. The WAT Subsidy Agreement will be a legally binding contract between you and the TSC. You should seek independent legal advice before applying so you fully understand the terms and conditions of the WAT Subsidy Agreement.

Once your application is approved, you will need to present a vehicle for licensing as a WAT, and satisfy all other requirements within six months of approval in order to remain eligible for the subsidy. The TSC may agree in writing to an extension in some cases.

For approved applicants, the TSC will provide a subsidy to equalise the difference between the cost of a conventional taxi and a WAT, including conversion costs, up to a maximum subsidy of \$44,000 (including GST) on a progressively reducing scale. The amount of subsidy paid will depend on the age of the vehicle at the time the subsidy is paid, up to a maximum vehicle age of five years. The amount of subsidy that will be paid is also based on whether the vehicle requires conversion or is pre-converted and whether at the time of purchase it is, or has previously been, a taxi. Refer to Section C.

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

Vehicle dealer

There is no specific requirement to purchase the vehicle from a particular dealer. It is important that you purchase the correct type of vehicle that fits the formal specifications of a WAT vehicle. For further information on WAT vehicle specifications, please refer to the *Wheelchair Accessible Taxis (WAT) Registration Procedures (December 2010)* available on the TSC website.

Payment

The subsidy is paid as a lump sum at the time the WAT vehicle is licensed to operate and all documentation has been provided.

You may require short-term bridging finance to cover the cost of the purchase before you receive the subsidy from the TSC. You should seek your own independent financial advice in this regard.

If a base vehicle is purchased and requires conversion to meet WAT specifications, then payment of the subsidy will occur at the time the vehicle commences service as a WAT, not when the initial base vehicle is purchased.

The TSC will pay the subsidy when it sights and/or receives (as appropriate) original or certified copies of the following documentation:

- a Licensed Taxi Tester inspection report to confirm compliance with *Wheelchair Accessible Taxis (WAT) Registration Procedures (December 2010)*
- an engineering certificate for WAT conversion
- evidence of comprehensive insurance cover on the vehicle
- proof of vehicle ownership
- a valid tax invoice for the vehicle and separate tax invoice for the conversion if this has been undertaken and paid separately, and
- a valid invoice made out to the Taxi Services Commission to claim the subsidy payment.

A certified copy means a document that has been certified as a true copy of an original by a person listed in section 107A of the *Evidence (Miscellaneous Provisions) Act 1958*. These persons include a member of the police force, a legal practitioner, medical practitioner and a pharmacist.

The subsidy will be either credited to the bank account nominated on your application, or provided to you by cheque, if requested.

The subsidy may only be used for the purchase of a WAT vehicle, or the purchase and conversion of a vehicle to a WAT.

Successful applicants may not use the subsidy to purchase other things, and the subsidy does not cover on-going operating costs.

The WAT operator will be responsible for all ongoing costs and fees associated with the purchase and licensing of the vehicle, including, but not limited to, taxi livery, taxi equipment, stamp duty, vehicle inspection, vehicle registration, Transport Accident Commission (TAC) fees and insurances and repayment of the unexpired subsidy (if applicable).

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

Vehicle standards

Vehicle standards apply to licensing a WAT vehicle and you will be required to provide confirmation of compliance with the *Wheelchair Accessible Taxis (WAT) Registration Procedures* (December 2010). Taxis used for the carriage of people in wheelchairs are also subject to these Standards Australia specifications:

- AS 2942 *Wheelchair Occupant Restraint Assemblies*, and
- AS 3856 *Hoists and Ramps for People with Disabilities – Vehicle Mounted*.

All WAT vehicles must comply with these standards and you will be required to provide evidence of compliance to the TSC before the subsidy is paid.

WAT training

All new drivers of WAT vehicles in Victoria are required to satisfactorily complete the required WAT training (existing drivers with less than five years' accreditation are not required to undergo WAT training/assessment again).

For drivers of WAT vehicles in the Melbourne metropolitan and urban (and large regional) zones this means that they must satisfactorily complete the relevant modules of The Knowledge; this requires completion of the computer-based WAT theory module and then the WAT practical module as a part of the Knowledge test.

For drivers of WAT vehicles in the regional and country zones this means providing proof of competency against the capabilities outlined in 'Provide wheelchair accessible taxi services to passengers with disabilities TLIC4009A' unit of the *Certificate II in Driving Operations (Taxi)*.

Accessible Taxis to operate on Country Taxi Licences

Ongoing information

There are no mandatory reporting requirements, however, the TSC may require you to provide general information about the operation of your WAT from time to time.

Vehicle insurance

The subsidy will not be paid until a comprehensive insurance policy has been purchased on the WAT vehicle. Evidence of insurance cover is required to be provided to the TSC prior to receipt of the subsidy.

You will be required to maintain continuous comprehensive insurance over the WAT vehicle for the term of the subsidy period.

Use of the vehicle for something other than its intended use

You must operate the WAT vehicle in a manner that ensures priority is given to bookings by people in wheelchairs. Beyond this you may use the vehicle as a conventional taxi to maintain utilisation.

Repayment of unexpired subsidy

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

At any point in time, the subsidy relating to the remaining term (as per the WAT Subsidy Agreement) is referred to as the 'unexpired subsidy'. In some circumstances, the operator may be required to repay the unexpired subsidy to the TSC.

Based on a pro-rata balance, the unexpired subsidy would become payable to the TSC in any of the following circumstances:

- the WAT is used in a manner that does not give priority to people in wheelchairs
- the WAT is not used for any substantial period, irrespective of the reason for failing to do so (including but not limited to the vehicle being 'written off')
- the sale of the WAT
- the sale of the taxi business or licence, or
- the termination or non-renewal of an 'as of right' licence or licence assignment where the subsidy was provided to the WAT operator.

The amounts of the unexpired subsidy that may become payable to the TSC are specified in Tables 2, 3 and 4 in Section C.

For example, if you were provided with a subsidy for a vehicle purchase, and the initial subsidy paid to you was \$44,000 (including GST), and you sell the vehicle or your business between two and three years later, then you are required to reimburse the TSC for the unexpired subsidy of \$15,092 including GST.

In all cases, once the unexpired subsidy falls to less than \$10,000 you are no longer required to reimburse the TSC. It is on this date that the terms of the subsidy agreement with the TSC cease.

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

SECTION B

Section B: Instructions on how to apply

Applicants are required to complete the *Application for a Wheelchair Accessible Taxi Vehicle Subsidy* form and attach all supporting documentation.

These guidelines will assist prospective applicants to understand the process for determining subsidy applications.

The TSC recognises that there may be other circumstances that warrant special consideration and these operators are encouraged to discuss their individual needs and proposals with the TSC.

You will not be eligible for the subsidy if you:

- have been granted a subsidy within the previous two years (unless there are exceptional circumstances that the TSC considers warrant an additional subsidy to be granted), or
- are applying for a subsidy to operate a wheelchair accessible taxi (WAT) in the Melbourne Metropolitan Zone or the Urban and Large Regional Zone.

Please note, an Application for a Wheelchair Accessible Taxi Vehicle Subsidy will not be considered if the applicant owes an unexpired subsidy to the TSC.

Wheelchair Accessible Taxi Vehicle Subsidy Scheme Guidelines

Section C: Schedule of subsidy payment

Except for vehicles less than six months' old the purchase price is not a factor in the TSC's determination of the subsidy amount.

For vehicles less than six months' old, the TSC will seek validation of the purchase price and will confirm the amount declared for stamp duty purposes.

Vehicle age will be calculated from the build date, as shown on the manufacturer's compliance plate.

6. Liability and indemnity

6.1 The liability of the TSC in relation to the purchase, and any associated conversion, of the WAT or otherwise in connection with this Agreement is limited to the amount of the subsidy. If the Purchase Price and any associated Conversion Cost exceeds the amount of the subsidy, then the excess will be the responsibility of the Recipient. The TSC is not liable for any other cost, fees or duties associated with the WAT, including (but not limited to) in relation to the registration, licensing, use, operation, insurance or inspection of the WAT, or any stamp duty or Transport Accident Commission fees.

12.3 The provisions of this clause are in addition to any other mode of service permitted by law.

13. Entire Agreement and Variation

13.1 The Recipient acknowledges that this Agreement contains the entire agreement between the Recipient and the TSC in relation to the Scheme, and that it takes precedence over any other prior correspondence between the parties in relation to the Scheme.

13.2 The terms and conditions of this Agreement may only be varied as agreed in writing between the parties.

14. Reconstitution

14.1 The Recipient acknowledges and accepts that the TSC may be reconstituted, renamed or replaced and that some or all of the powers, functions or responsibilities of the TSC may be transferred to or vested in another Victorian government body, department or agency (New Body).

14.2 If the TSC is reconstituted, renamed or replaced or if some or all of the powers, functions or responsibilities are transferred to or vested in a New Body, references in this Agreement to the TSC will be deemed to refer, as applicable, to that New Body on and from a date notified by the TSC.

14.3 The Recipient will execute any document reasonably required by the TSC in order to perfect any matters referred to in clause 14.2.
